

Good afternoon!

I'm glad to introduce myself to you: my name is Ekaterina Voronina. I am 21 years old and I was born in the beautiful city Saint Petersburg in Russia.

I started studying fashion at the famous Stieglitz Academy in my hometown, where I acquired good skills in painting and drawing as well as various knowledge in history of art and costume. *It was very exceptional experience to be there but I decided to move on and completely change my life. That`s how I found myself in Polimoda in Florence. Every inch of this culture feeds me and I feel that everything I come across here inspires me and I develop with each project I do.*

*All my life I was inspired by different cultures, cities, people with saturated lives. I am so happy to find out new visual and mental information for myself, meet people from different countries and learn from stories of their life. Because for me it comes like an impulse to be inspired and start create. When I was in Mexico for two weeks, I came back home and made my project for one night because I was so full of the new information which I found out for myself. It was after being in museum of Frida Khalo and pyramids of moon and sun, such amazing experience! The pyramids seems like they are full of energy and that place is very peaceful.*

Here I work on my projects, which provide me to make my dreams come true. I'm always in motion, thinking, looking for opportunities and solutions. *I find out my inspiration, draw, feel deeply the mood of the story which I'm telling to people and create garments which reflect my own representation of received information.*

My biggest dreams are not to lose the property of finding out something very unique for myself in simple things or in the things, which seems not as so interesting for the first time you know them. Also I want to learn for all my life from everything, what gives visual or mental information and to show people how unusual and untouchable things can be which seems so imperceptible. *My dream is to be, to live my life with rush and purpose and of course, create.*

*Thank you for reading,*

*Ekaterina*
